

RCSS Global Research Academy

Transforming Curious Minds into Confident Researchers

AI-101 AI for Researchers

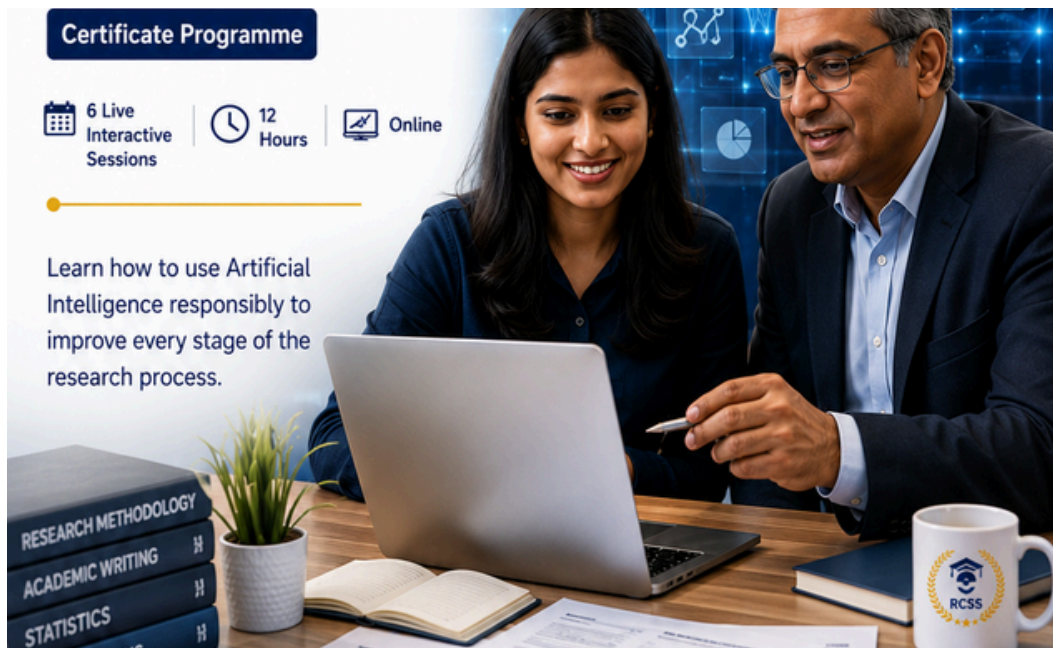

Practical AI Tools for Smarter Research

Certificate Programme

6 Live Interactive Sessions | 12 Hours | Online

FOUNDER'S BATCH

Learn how to use Artificial Intelligence responsibly to improve every stage of the research process.

Launch Fee ₹ 399

Why AI-101?

Artificial Intelligence is transforming every stage of research—from literature review and research design to academic writing and data analysis.

AI-101 helps researchers use AI practically, critically and responsibly while maintaining academic integrity and independent thinking.

Who Should Attend?

 PhD Scholars	 Faculty Members	 MBA & PG Students
Accelerate thesis and dissertation	Enhance research productivity	Improve projects and dissertations
 Researchers	 Working Professionals	 Research Enthusiasts
Build practical AI research workflows	Apply AI to reports and projects	Build confidence in AI-assisted research

After completing AI-101, you will be able to:

- ✓ Write better AI prompts.
- ✓ Conduct faster literature reviews.
- ✓ Develop research objectives and hypotheses.
- ✓ Improve academic writing.
- ✓ Interpret research findings with AI assistance.
- ✓ Use AI ethically and responsibly.

"AI should support your thinking—not replace it."

— Dr. J. K. Sachdeva

RCSS Global Research Academy

Transforming Curious Minds into Confident Researchers

Programme Structure

DAY 1	DAY 2
AI Fundamentals & Prompt Engineering	AI for Literature Review
Understand Generative AI, explore major AI tools and learn to write effective research prompts.	Discover research literature, understand papers faster and use AI to organise and compare studies.

DAY 3	DAY 4
AI for Research Design	AI For Academic Writing
Develop research problems, objectives, hypotheses, variables and questionnaires with AI assistance.	Improve academic language, structure research papers and use AI responsibly in scholarly writing.

DAY 5	DAY 6
AI for Data Analysis	Responsible AI & Capstone Project
Use AI with Excel, SPSS and Python to understand analysis, outputs and research findings.	Identify hallucinations, fake references and ethical risks, and complete an AI-assisted mini research project.

RCSS Global Research Academy

Transforming Curious Minds into Confident Researchers

Why Choose RCSS Global Research Academy?

Practical Learning	Live Demonstrations	Research Focused
Learn by doing, not merely listening.	See AI tools applied to real research tasks.	Designed specifically for researchers and scholars.
Interactive Sessions	Affordable Learning	Continued Guidance
Ask questions and practise during live sessions.	Quality research training at an accessible fee.	Learning support beyond the live classroom.

Programme Details

Programme	AI-101: AI for Researchers
Commencement	Aug 7, 2026
Mode	Online – Google Meet
Duration	6 Live Interactive Sessions / 12 Hours
Timing	7:00 PM – 9:00 PM (IST)
Launch Fee	₹399
Certificate	Digital Certificate on Successful Completion

Visit our website to learn more about the Academy, upcoming programmes and course guidance.
